

TESTEDNESS METRIC

- ◆ Effort put into testing: coverage influences interpretation
- ◆ Elusive, interpretation depends on: comparison with similar projects.

MODELS

- ◆ JELINSKI & MORANDA
- ◆ Bayesian J & M
- ◆ Littlewood-Verrall

Others in the literature eg IEEE
Transactions on Reliability.

METRIC USE

METRIC	DOMAIN	eg
Reliability	Failure very undesirable	
ROCOF	Frequent failure undesirable	
MTBF	Utilisation is stable	
Availability	Down-time important	
Time to target
